Madam, there's no range like this in the world

See that Damper. It automatically regulates the oven and the fire. It places the Crawford Range in a class by itself.

Those scientifically arranged heat flues distribute the heat evenly in a Crawford Range. You can't have anything but perfect cooking in a Crawford.

The Damper and the Flues make

perfect from a constructional point of view. They give you more oven heat per pound of coal than any other stove on the market. Then there are those interchangeable ash hods! The flues that distribute the heat evenly - no waste! And there are at least seventeen other Crawford advantages demonstrating why this Range is superior to all others.

I have been selling Crawford Ranges for years, Madam, and I am certain there is no other like it as a life investment for your home. And I'm quite sure no other Range can equal Crawford satisfaction. Gas Ovens if desired: end (single) or elebated (double).
